News & Events from Rev-Sim.Org
July / August 2018

Revolution in Simulation is a non-profit industry initiative for educating, advocating, collaborating, and innovating to make the use of engineering simulation technologies not just more capable and efficient for the CAE expert, but also more accessible and reliable for non-experts – what we call the democratization of simulation.

The *Rev-Sim.org* website provides expertly curated resources through an open community platform to share the latest industry news, case studies, blogs, whitepapers, webinars, best practices, consultant advise, and solutions providers to help democratize simulation for the benefit of faster and more robust product development cycles.

SUCCESS STORY:

Semiconductor Optimization Achieved through Democratization

Using high performance computing to process large data models, First Solar is able to continue innovating in advanced technologies that lower electric costs,

increase energy yield and provide stable and reliable grid integration.

CAASE 2018 RECAP

Democratized Simulation Growing by Leaps & Bounds

The 2018 edition of CAASE is in the books!
And NAFEMS Vice President, Matt Ladzinski shares his thoughts.

View the Democratizing Simulation presentations from the conference here.

FEATURED BLOGS

The Path to Democratizing Simulation

Pushing Democratization Beyond a Buzzword at CAASE 18

Launching the Simulation Revolution

Engineering.com's Michael Alba and Digital Engineering's Jamie Gooch write about Democratized Simulation and the supporting role of Rev-Sim.Org.

SPOTLIGHT ON

Business Challenges & ROI

Engineering Simulation is a major key for multiple business drivers by providing better understanding of product and process behavior, variability and risk.

SPONSOR SPOTLIGHT

ESRD

ESRD, Inc. is the developer of StressCheck®, the world's premier high definition, detailed analysis simulation tool, and are thought leaders in Simulation Governance, the deployment of Smart Engineering Simulation Apps and the Democratization of Simulation.

WHAT'S AHEAD

Conferences

Call for Papers

NAFEMS Announces Call for Papers

Gateways 2018

September 25-27: Austin, TX

International Meshing Roundtable

October 1-5: Albuquerque, NM

MSC Software Conference

October 9-10: Berlin, Germany

3D Collaboration & Interoperability

October 15-18: Golden, CO

NAFEMS Aerospace Simulation Automation

October 18: Seattle, WA

ASSESS 2018 Congress

October 28-30: Braselton, GA
